HSE No. 10767

To avoid risks to man and the environment comply with instructions for use. This material and its container must be disposed of in a safe way. Do not contaminate foodstuffs, eating utensils or food contact surfaces. Wash hands and exposed skin before meals and after use. Keep in a safe place. Do not touch treated surfaces until dry. Cover all water storage tanks before application. Cover or remove fish tanks before application. All bats are protected under the Wildlife and Countryside Act 1981. Before treating any structure used by bats, consult Natural England, Scottish Natural Heritage or the Countryside Council for Wales. Hazardous to bees. Action should be taken to prevent foraging bees gaining access to treated nests, preferably by removing the combs or blocking the nest entrance. Do not apply directly to animals. Exclude animals during application. Do not apply to clothing and bedding.

When used by professional operators the following conditions also apply: The (COSHH) Control of Substances Hazardous to Health Regulations 2002 may apply to the user of this product at work. Avoid excessive contamination of coveralls.

#### WARNING

Very toxic to aquatic life with long lasting effects. Contains chrysanthemum cinerariaefolium extract. May produce an allergic reaction.

**Precautions:** Avoid release to the environment. Collect spillage. Dispose of contents/container in accordance with national regulations.

In Ireland - Poisons Information: For information or to report a poisoning incident contact The National Poisons Information Centre (01 8092166).

PCS No. 100079

\* Chrysanthemum cinerariaefolium, extract from open and mature flowers of Tanacetum cinerariifolium obtained with supercritical CO<sub>2</sub>.
