CONTAINS: DISTILLATES (PETROLEUM), HYDROTREATED LIGHT / ALCOHOLS, C11-14-ISO-C13 RICH, ETHOXYLATED / BENEZE SULPHONIC ACID, 4-C10-14-ALKYL DERIVATIVES, CALCIUM SALTS / ISO-BUTANOL

Application Method and Rate

Use the Exodus, Microgen or other suitable ULV droplet generating equipment to disperse this product. Use at a dose rate of 100 ml per 1000 m³ and flow rate of 35 ml per minute. Use the product undiluted. Fit the bottle into the machine after removing its plastic screw cap and foil seal. Ensure that the top of the bottle dip tube engages well with the machine spindle. Shut off all ventilation systems, pilot lights and close the room or warehouse. Exclude all animals during application. Leave the room closed for 1 hour after treatment. Do not remain in treated areas and ventilate before entry.

Uses and Application Areas

Insecticide for professional use against flying insects such as house flies, mosquitoes, cockroaches, beetles, moths, sandflies, booklice, ants, earwigs, silverfish, bed bugs, mites, spiders, ticks, wasps and fleas in domestic and public hygiene areas including kitchens, office buildings, hotels, vehicles, hospitals (excluding occupied wards); municipal buildings; military buildings (in and around barracks); food storage areas (in food retailers, warehouses, raw material stores); on garden refuse tips and refuse tips, plus amenity areas. Also for use in and around farm buildings. Not for use in empty grain stores.

To avoid risk to man and the environment, comply with the instructions for use.

Use only as described on label.

Statutory conditions of approval relating to use.

For use only as an insecticide.

For use only by professional operators.

Users must comply in full with all their legal responsibilities under the Control of Pesticides Regulations 1986 (as amended), including complying with all conditions of approval.

Read all precautions before use.

Application rate: see section 'Application Method and Rate' for details on dose rates.

HSE No:10529
